

Sustainable recycled design paper

202204

Ecological conscience and sustainability are important components of brand communication. Coffee paper conveys this at first glance: upcycled coffee waste and 100 % post consumer recycling fibers give it a spectacular pattern and an obviously recycled character. Its unique optics and excellent printability make it the perfect material for both, packaging and printing applications that stand out.

Product overview

Range

		g/m ²	72 x 102 cm
Surfaces	wove other embossings available on request	80 120 250	• • •
